PROFESSIONAL SUMMARY

MIS/Data Analyst with an MCA and hands-on experience in SQL, Advanced Microsoft Excel, Power BI, Python, and database management. Skilled in preparing MIS reports, building KPI dashboards, validating data, automating reporting processes, and analyzing operational data to support business decisions with accurate and timely reporting.

TECHNICAL SKILLS

- **MIS & Reporting:** MIS Reports, Daily/Weekly/Monthly Reporting, KPI Dashboards, Power BI, Report Automation
- **Databases:** SQL, MySQL, PostgreSQL, SQLite, Database Management, Data Integrity
- **MS Office Suite:** Advanced Microsoft Excel, Pivot Tables, Power Query, Charts, Microsoft Word, PowerPoint
- **Data Analysis:** EDA, Data Cleaning, Data Validation, Trend Analysis, Pattern Analysis
- **Programming:** Python, SQL, Pandas, NumPy, Excel Automation
- **Tools:** Power BI, Git, GitHub, Jupyter Notebook, VS Code
- **Soft Skills:** Analytical Thinking, Attention to Detail, Communication, Problem Solving, Time Management

PROJECTS

Weather & AQI Analytics Dashboard

Python, REST APIs, Pandas, Power BI

- Collected, cleaned, and validated weather and AQI data from multiple REST APIs to ensure reporting accuracy.
- Developed interactive Power BI dashboards to monitor KPIs, trends, and environmental metrics through visual reports.
- Automated data preparation using Python and Pandas, reducing manual reporting effort and improving efficiency.
- Performed trend analysis to generate actionable insights for effective decision-making.

FoodLink AI – Data Reporting & Recommendation System

Python, FastAPI, SQLite, Scikit-learn

- Designed and maintained a relational SQLite database to ensure accurate and consistent reporting.
- Prepared structured datasets using SQL and Python for reporting, analysis, and recommendation workflows.
- Performed data validation and quality checks to improve database reliability and reporting accuracy.
- Analyzed user interaction data to identify trends supporting business reporting and operational insights.

AI Hospital Assistant – Records & Reporting System

Python, FastAPI, LangChain, SQLite

- Built a centralized database for patient records with secure retrieval and structured data management.
- Generated operational reports from stored records to improve information accessibility and reporting efficiency.
- Maintained database integrity through data validation and consistent record management practices.
- Developed REST APIs to organize and retrieve records, supporting accurate operational reporting.

INTERNSHIP EXPERIENCE

Data Science Intern | Emerging Technologies

Jan 2026 – Mar 2026

- Collected, cleaned, and analyzed structured datasets using SQL, Python, and Microsoft Excel for business reporting.
- Developed Power BI dashboards and automated recurring reports to monitor KPIs and operational performance.
- Performed data validation, maintained database integrity, and ensured reporting accuracy across datasets.
- Analyzed business data to identify trends and provide actionable insights for decision-making.
- Collaborated with team members using Git/GitHub to manage reporting scripts and project documentation.

EDUCATION

Dr. Ram Manohar Lohia Avadh University

Aug 2024 – Aug 2026

Master of Computer Applications (MCA)

CERTIFICATIONS

- Microsoft Certified: SQL AI Developer Associate
- Machine Learning Specialization – DeepLearning.AI
- Google AI Essentials – Google
- Fundamentals of Machine Learning and Artificial Intelligence – AWS
- Deloitte Data Analytics Job Simulation (Forage)
